

## Patch cords, CAT 6 U/UTP, AWG 28

### General

CAT 6 U/UTP patch cords, LSZH AWG 28, lengths from 0,15m to 5m, color white.

Category 6 class patch cords are manufactured and tested to the ISO/IEC 11801 and DIN EN 50173 category 6 specifications. They will guarantee the installed cabling system is compliant with the ISO & EN channel specification requirements and will provide optimum performance levels of category 6 cabling. The performance is tested up to 250 MHz inclusive performance characteristics such as near end cross talk ("NEXT"). Patch cords are designed and produced to fulfill the highest requirements of various application areas in full volume. Each cable is fitted with a molded boot which comes with kink protection and strain relief. Furthermore, the boot is equipped with a latch protection that prevents the latching lever from breaking.
